PLAIN TREAD LOADER DOZER L5S

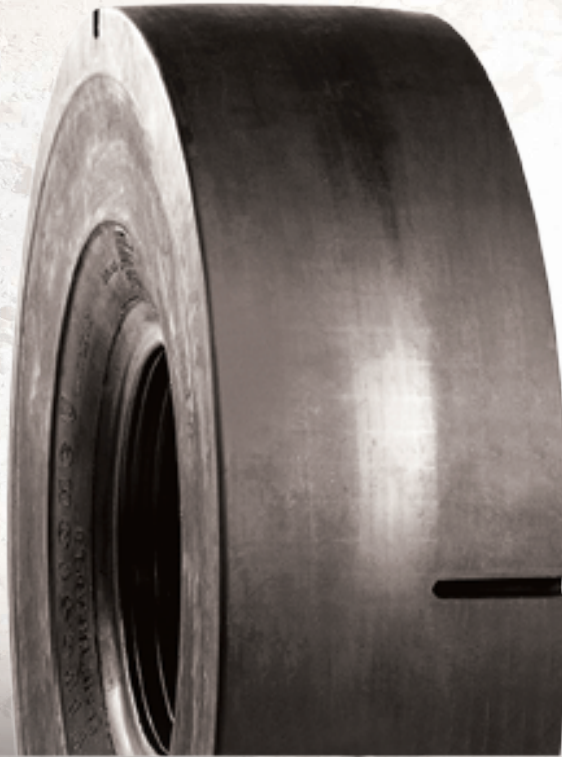

The **PLAIN TREAD LOADER DOZER** bias tire offers maximum cut protection for extreme service loader/dozer applications with certain sizes available with nylon-steel construction for added cut and impact protection.

SPECIALIZED FEATURES

- Super heavy duty plain tread design for extreme service applications
- Extra tough plain tread design is 250% deeper than our SRG
- Some sizes available in "steel shield" construction for additional cut and impact protection
